

March 18, 2024

UNION Savings BANK operates in 4 locations in Northern Illinois, see Attachments.

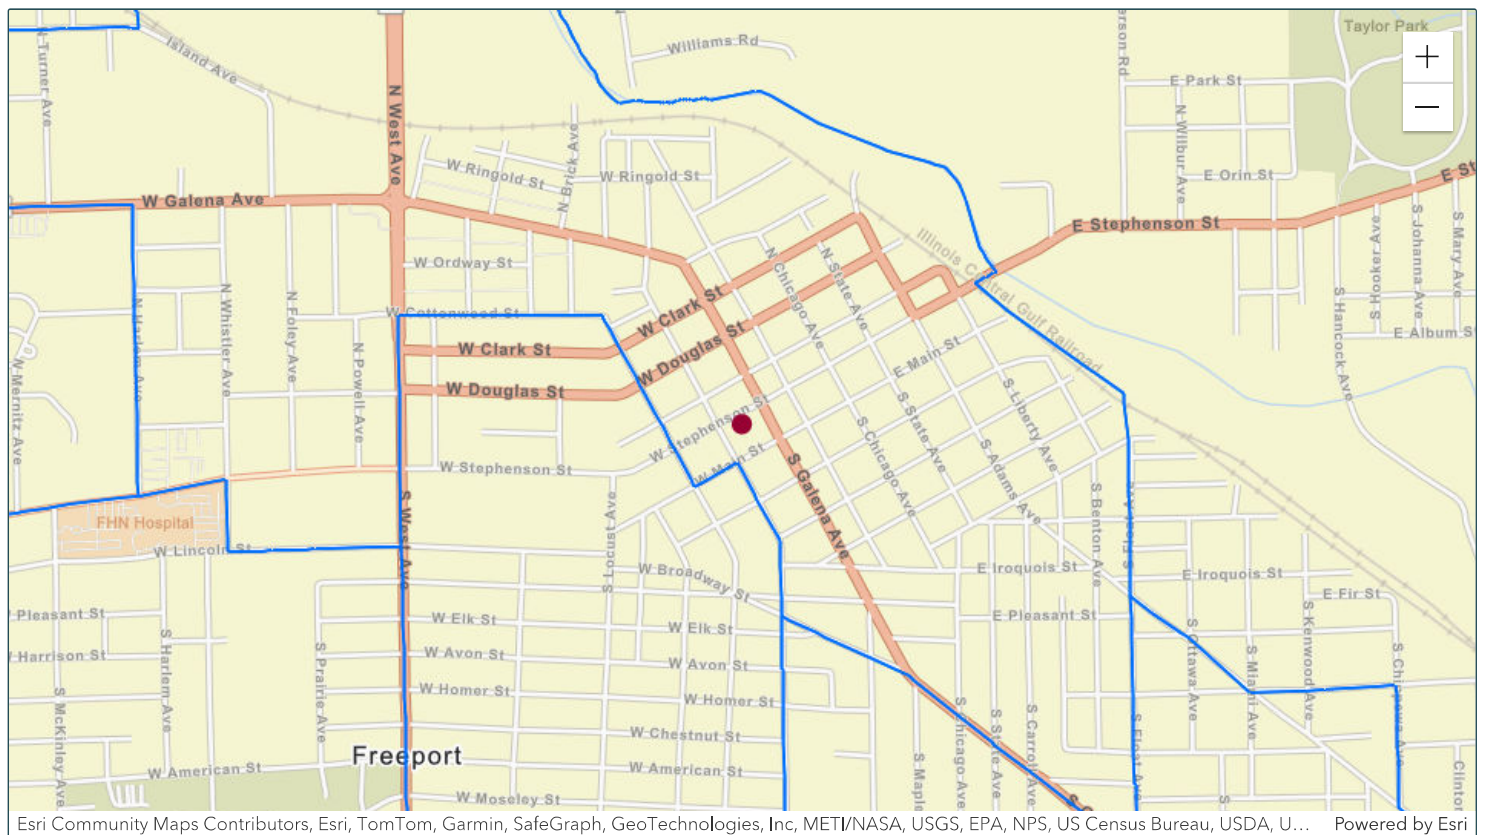

1. The Main Office is located at 223 W Stephenson St., in Freeport, IL in Census Tract 8.00 (See Attachment "A")
2. A Branch at 715 W South St., in Freeport, IL in Census Tract 12.00 (See Attachment "B")
3. A Branch at 1320 N State St., in Belvidere, IL in Census Tract 101.00 (See Attachment "C")
4. A Branch at 1 W Hitt St., in Mount Morris, IL in Census Tract 9609.00 (See Attachment "D")

The UNION Savings BANK Assessment Area includes all census tracts located in the following Illinois Counties: Stephenson, Winnebago, and Boone. In addition, the Assessment Area includes the following census tracts in Ogle County: 9607, 9608, 9609, 9613.01, 9613.02, 9614, 9615, and 9617.

See Attachment "E" for a listing of all Census Tracts included in this Assessment Area.

Sincerely,

Eric Cummins
Compliance Officer

LEGEND

Where international, state, county, and/or MCD/CD boundaries coincide the map shows the boundary symbol for with the highest ranking of those boundaries.

Geographic area names are followed by either their FIPS or census code.

- A "1" following an MCD name denotes a full MCD. A "2" following a place name indicates that the MCD is a place with the same name and FIPS code as the place (for full MCDs in this state).
- Place label codes correspond to the place fill color.
- Census tracts are identified by an up to five digit integer number and may have an optional one digit suffix (the census CT or CCD). The census tract codes consist of six digits with an implied decimal between the fourth and fifth digit corresponding to the basic census tract number (see table below) and ending with one or other three optional suffixes. The tract number example above would have codes of 90300 and 10700, respectively.

Due to space limitations, some road names, along with other features and geographic names on this map, may not be shown.

LEGEND

Where international, state, county, and/or MCD/CCD boundaries coincide the map shows the boundary symbol for only the highest ranking of those boundaries.

Geographic area names are followed by either their FIPS or census code.

- A "*" following an MCD name denotes a full MCD. A "**" following a place name indicates that the MCD name will be the same name and FIPS code as the place (for the MCD that is in census).
- Place label color corresponds to the place fill color.
- Census tracts are identified by an up to five digit integer number and may have an optional two digit suffix for census tract (CT) ID. The central tract codes consist of six digits with an implied decimal between the fourth and fifth digit corresponding to the basic census tract number. The sixth digit, and trailing zeros for other census tracts within the tract number example above would have codes of 00300 and 10700, respectively.

Due to space limitations, some road names, along with other names and geographic names on this map, may not be shown.

LEGEND

Where international, state, county, and/or MCD/CD boundaries coincide the map shows the boundary symbol for each. The highest ranking of those boundaries.

Geographic area names are followed by either their FIPS or census code.

1. A " " following an MCD name denotes a full MCD. A " " following a place name indicates that the MCD name will be the same name and FIPS code as the place (for example, 00000 in this case).

2. Place label codes correspond to the place fill color.

3. Census tracts are identified by an up to five digit integer number and may have an optional one digit suffix (for example 01002). The census tract codes consist of six digits with an implied decimal between the fourth and fifth digit corresponding to the basic census tract. The tract name with leading zeros and trailing zeros is often used in official reports. The tract number example above would have codes of 00300 and 10700, respectively.

Due to space limitations, water road names, along with other names and geographic names on this map, may not be shown.

All legal boundaries and names are as of January 1, 2020. The boundaries shown on this map are for Census Bureau statistical data collection and dissemination purposes only; their accuracy and interpretation for non-census purposes does not constitute a determination of jurisdictional authority or right of ownership or entitlement.

Where international water courses, such as the Mississippi River, are depicted, the boundary symbols are not the official boundary of the international border. The boundary symbols are followed by their IHO or ICAO code.

1. A "4" following the AICD name, such as the M31, A-4, indicates a major waterway of the AICD, with the number 4000 following the AICD name. A "3" following the AICD name, such as the M31, A-3, indicates a minor waterway of the AICD, with the number 3000 following the AICD name. A "2" following the AICD name, such as the M31, A-2, indicates a minor waterway of the AICD, with the number 2000 following the AICD name.

2. Detailed color coding is to be placed on the map.

3. Census tracts are classified by their population density. The population density is calculated by dividing the population by the land area. The population density is rounded to the nearest integer.

4. Census tracts are classified by their population density. The population density is calculated by dividing the population by the land area. The population density is rounded to the nearest integer.

5. Census tracts are classified by their population density. The population density is calculated by dividing the population by the land area. The population density is rounded to the nearest integer.
